

When I go to miSci

The miSci museum can be a fun place to see and do many activities.

When I walk in the doors to the miSci building, there will be a big room with many windows in the back. This is called the lobby.

If I have a coat, there will be racks in the big room for me to hang my coat.

Then I will go to the guest services counter by the gift shop to get my tickets.

There are many things to see and do at miSci. I can visit the museum galleries and I might be able to see a planetarium show.

Some of the things to see will make noises. Some may be loud.

loud

Other things have may bright lights or moving parts.

There are some things at miSci that are just for looking. If something has a case over it or a rope in front of it, that means it is not for touching.

Look Only:

There are other things that you can touch or play with at miSci.

If the miSci museum is busy, I will have to wait in line for my turn to touch some of the popular items.

Some of the fun activities to touch or play with may have a timer. I can play with those until the timer stops. Then I will have to give someone else a turn.

If I need a break, I can use my words to leave an activity. I can say, “Break please.”

There will be areas with bean bag chairs for me to take a break.

There will be staff and volunteers at the miSci museum who can help me to find things such as the quiet area. They will be wearing shirts or nametags that say miSci.

There are restrooms for men, women and families available if I need to go to the bathroom.

At the end of my miSci visit, I will be back in the lobby. If it is nice outside, I might be able to go through the glass doors in the back of the big room to the outdoor patio. There is a water table, a tent and picnic tables there. This patio overlooks the city of Schenectady.

When I return to the lobby, I might have a choice to visit the miSci gift shop.

When I am finished visiting the miSci museum, I will get my coat and leave.
